www.seemephotography.com

*Portraits: likeness, image, representation (of a person)*

# *See yourself in a new light...*

## *Sittings*

*Portrait sitting happen in the place your most comfortable.. your own home!*

*We come to you and create a fantastic 'home studio' environment using lightweight portable backdrops and professional lighting..or simply natural light and your own decor as a backdrop or any combination we think will work best to get the results.*

*You would be amazed at how professional portraits are created..using the correct lenses, lighting and technique. If the weather suits and there are interesting locations close by why not take some of the time available to shoot outdoors for real variety and plenty of choice when it comes to selecting images from your gallery.*

## *Photographs*

*Your shoot will be posted in your own private gallery online and a password is assigned just for you so you have complete control over who can see your images. You can simply forward the link and password to friends and family for them to access the photographs (and order prints directly from us if they so wish).*

*Prints may be ordered individually through the website or alternatively the digital files may be purchased on a disc for a one off fee depending on the number selected.*

# Pricelist

## *Your Images..your choice!*

Please relax and enjoy the experience knowing you'll receive not only the best professional care in creating your portraits but that you will be able to order as much or as little as you want..no tie ins or hard selling!

We keep your files on our servers for at least 24 months after the shoot so you have time to consider future purchases if you so wish.

Frames and all the modern range of mounting choices are available and too numerous to list..we will quote you individually.

All prints and frames are supplied by a top UK lab specialising in the social photography market and considered the very best available.
